

Imagine if the human body was a battery and you could recharge it.

It is! And you can!

Health Evolution presents:

## The miracle of hyperbaric oxygen and pulsed electromagnetic fields.

1.30pm, 5 October 2019  
Mount Maunganui Golf Course  
\$20 at the door.

Incredible health breakthroughs are changing the lives of New Zealanders now. This talk describes a new medical paradigm using nothing but frequencies, oxygen and nutrition that is changing the lives of those with:

- chronic pain
- arthritis
- crohn's disease and irritable bowel
- migraine and cluster head aches
- concussion and traumatic brain injury
- stroke
- depression, anxiety and insomnia

Hear from cancer survivor, Hayley Brown, and nutritionist, Todd Balfour. Since 2014 they have used their personal experience and knowledge to benefit hundreds of New Zealanders with common health issues.

They will share case studies gathered over six years that will astonish you and give you renewed faith in the body's ability to heal itself.
